2021-2022 School Year - A Note to Parents and Community

On behalf of the Office of the Superintendent, we wish to extend a heartfelt welcome to you.

We are grateful to Governor Kathy Hochul (New York Governor) for extending support during this pandemic, including maintaining a mask mandate and allowing schools to operate safely.

The unprecedented challenges posed by the COVID-19 pandemic have required that our schools focus on student learning acceleration. We are preparing for full participation and readiness on the part of our teachers, school staff, and our public transportation. We have also finalized our health guidelines, including school health, nutrition, and pesticide use.

To support our efforts:

1. Ensure that your child attends school every day, as attendance is critical to their educational success.
2. Establish a stable and quiet environment at home for your child to complete their schoolwork.
3. Have your child participate in school health screenings.
4. Understand the shifts that are being made to support your child's education.

We appreciate your continued support. Together, we can ensure a successful educational experience for all.

Dr. Kriner Cash
Superintendent
