

# Instructional Technology PLOs

## **Back to School-ogy: Introducing the Elementary Experience**

**PGS Course #: 32804**

Schoology is offering a new experience for elementary learners (grades PK-2). The new experience enables teachers to display their courses and materials in a simplified and visual format that is engaging and easy to use.

## **Back to School-ogy: Live Annotations Feature**

**PGS Course #: 32783 (iPad),  
32782 (laptop)**

Instructors can create assignments that allow students to annotate a file. Students can use built in annotation tools to complete the assignment and submit it right within Schoology.

## **Digital Storytelling with Sway**

**PGS Course #: 32489**

Sway allows teachers and students to focus on creating content without worrying about formatting. The Digital storytelling with Sway module shows how Sway can be used to create and share digital stories for various purposes.

## **Engage and Amplify with Flipgrid**

**PGS Course #: 32491**

Integrate Flipgrid into your classroom to empower student voice. Educators of all subject areas, early grades through higher education can use Flipgrid as a tool to help students visualize and verbalize their thoughts.

## **Gamification and Activities in Nearpod**

**PGS Course #: 32731**

Dig into the activities and gamified formative assessment options in Nearpod. In this asynchronous professional learning opportunity you will learn how to use gamified activities in Nearpod, engage learners in live and student-paced mode, and launch activities on the fly.

## **App Smashing: myON+Nearpod**

**PGS Course #: 32759**

Nearpod and myON are now connected! There are pre-created lessons in our BPS District Library based on myON books. You can also link to a myON book or page in a myON book when creating or editing a Nearpod lesson.

\*These are self-paced courses that take 1-1.5 hours to complete. Participants will earn CTLE credit accordingly.\*
