6.22 Moving Up Day

11:30

(Doors open @ 11:15)

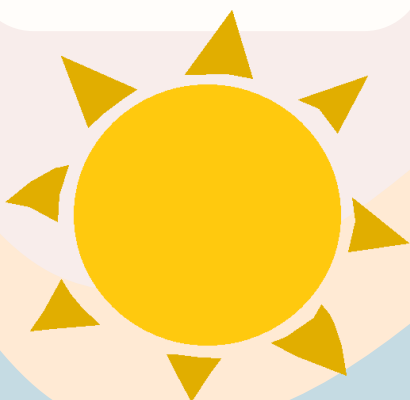

## Curriculum

**Reading:** This month we will focus on cause and effect and sequencing events that happen throughout a story. Students will apply their comprehension skills when reading their "just right" reading books. Students will focus on building and reading CVC and CVCe words with short and long vowels. We will also continue to blend words.

**Writing:** We will continue to focus on responding to text by writing complete sentences using capitalization, punctuation, nouns and adjectives. Students will use transition words and focus on word choice when writing their personal narratives.

**Math:** We will continue with Module 5. This module focuses on working with numbers from 11-20. We will keep building our math fluency by counting by 5's, 10's, and solve addition and subtraction word problems.
