

# Welcome

## to First Grade

Dear Families,

We are super excited to start a new year at North Park! Each year brings an exciting opportunity to teach, grow, and learn from a new group of students. First grade is full of transitions with a wide set of expectations. As the year progresses, you will see your child gain both responsibility and independence as a member of a challenging, exciting, and caring learning environment. While your child is in First Grade, they will participate in a team-teaching model, which will allow him or her to have two teachers (three if in ICT homeroom 303) that deliver their core subject areas. We hope our classrooms will be a place where your child finds the motivation to aim for personal success. The first-grade team strives to provide both a nurturing and loving environment. Our goal is to celebrate our achievements, support one another's emotional needs, and encourage one another towards positive change and academic growth. We sincerely hope North Park will be a place your child(ren) will look forward to coming to each day.

Sincerely,  
Grade 1 Team

## Meet the

**Ms. Bryant**

General Education Teacher  
Homeroom 301

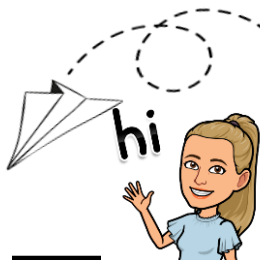

Hi! I will be your child(ren's)  
**ELA, SS, & Science**  
teacher this year.
