Catherine Paolini, Assistant Principal

June 2019

Dear Parents and Students:

Although summer has just begun, September will be here before we know it. So that your child is prepared for the school year, he or she should read every day! **MyOn** will be available during the summer. Your child has their username and password. To maintain good writing skills, your child may choose to keep a writing journal of his or her summer days.

The expectation is that all students entering the fifth grade should know their multiplication facts. The attached multiplication facts sheet should be reviewed over the summer so that students are prepared for the core curriculum in September. Please encourage your child to memorize them!

When we begin the 2019-2020 school year in September, fifth graders will need to be ready to learn. **It is important that students come to school on the first day with their school supplies.** On the back of this letter is a list of supplies. We are sending this list at this time so that you have ample time to purchase the supplies. Please have your child prepared on the first day of school. Please keep in mind that school supplies will have to be replenished throughout the school-year as needed.

Thank you for your continued support. We are looking forward to working with your child!

Sincerely,  
The 5<sup>TH</sup> Grade Team
