A Spoken Word Piece

George Floyd

**THE World is coming to an end because of this situation.** The people that’s fighting the police, it is unnecessary because the police is allowing people in the world to protest! But the people just don’t care. They look at it different. They look at like the Police Man killed an African-American so now they want justice for black people.

Don’t get me wrong it was wrong, for dat police man to kneel his knee on George Floyd’s head and for the other police men around when the police men had his knee on him should be ashamed because WHY would they let him do that to him?

I still don’t know why people in this world do such things to harm black people. The cop is still lucky because he killed him but only has 25 years in jail. He still has a chance to get out! But if it was anybody else they would have 1 degree murder which means life in jail.

There are other countries in the world that’s protesting for rights but that’s all I have to say about this. The world is not the same I know but its not going make it better when there are over 1000s of people trying to fight the cops. We was already on quarantine [lock down] we couldn’t go nowhere now. We definitely can’t. Because of this we got a curfew now at 8pm and the things I am seeing on the news is crazy! But yea, I just want everyone out there to be safe. I just don’t like the world like this.
