I Can’t Breathe

There are many protests around the world revolving around the death of George Floyd. He was a black man who passed away at 46 because a police officer kneeled on his neck and he was killed from asphyxia or in more simple word lack of oxygen and this was all because of a counterfeit $20 bill. As of now 1 officer Derek Chauvin was charged with third degree murder and second-degree manslaughter. People across the world set up protest the other the officers that were involved in the fatal arrest of George Floyd. I would join the protest if there wouldn’t be COVID-19 getting us sick to the point we could die. But yes this all I wanted to say about The death of George Floyd and the protest of this tragic event but here some images I have to prove my point.
