Old Amazon cardboard box

Picture taken by Mrs. Orenco

# What do We Consume:

Our class picked cardboard as our project item because we had lots of wasted cardboard. We noticed we had many boxes coming into our homes from Amazon or food items. It was the item we had the most waste of.

# How is cardboard a part of your Daily Life?

Whenever we buy things online (from online stores such as Target, Amazon, or Ebay) the items come in boxes. Food items such as noodles, meat, breakfast food, and rice all come in cardboard boxes as well. Many items we buy from the store also come in boxes, such as toys, clothing, holiday decorations, iPhones, and electronics.

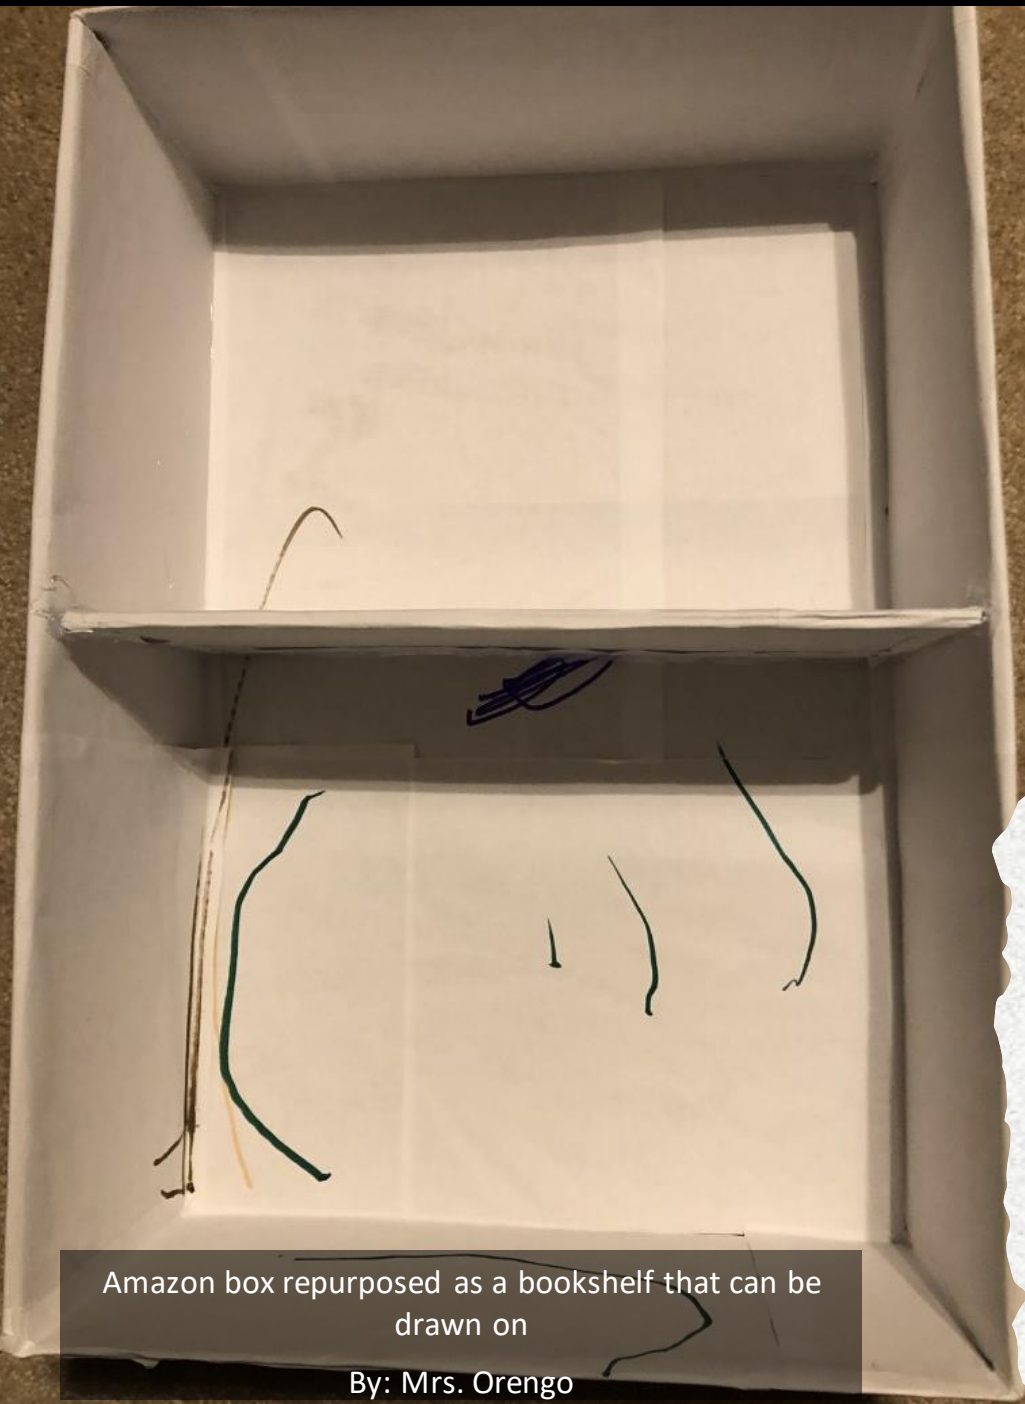

Some cardboard waste

# Our Classes Project Action

Most students already recycle cardboard waste. As a class, we decided to repurpose our cardboard to reduce how much ends up in the trash or recycling bin. Many students already reused boxes as storage, but we got more creative ideas to reuse them.

Amazon box repurposed as a bookshelf that can be drawn on

My Project's  
Actions By  
Natalia

- To reduce cardboard waste, I made Among Us characters with toilet rolls and cardboard. I got the boxes from Walmart and painted it to make it.

## My Project's Actions

- Tell what your item: Letter O.
- By: Ogechi

To reduce cardboard waste , I made a my first name initial O out of cardboard. I used cardboard that could have been used to be recycled. The cardboard box was packaging for yams.

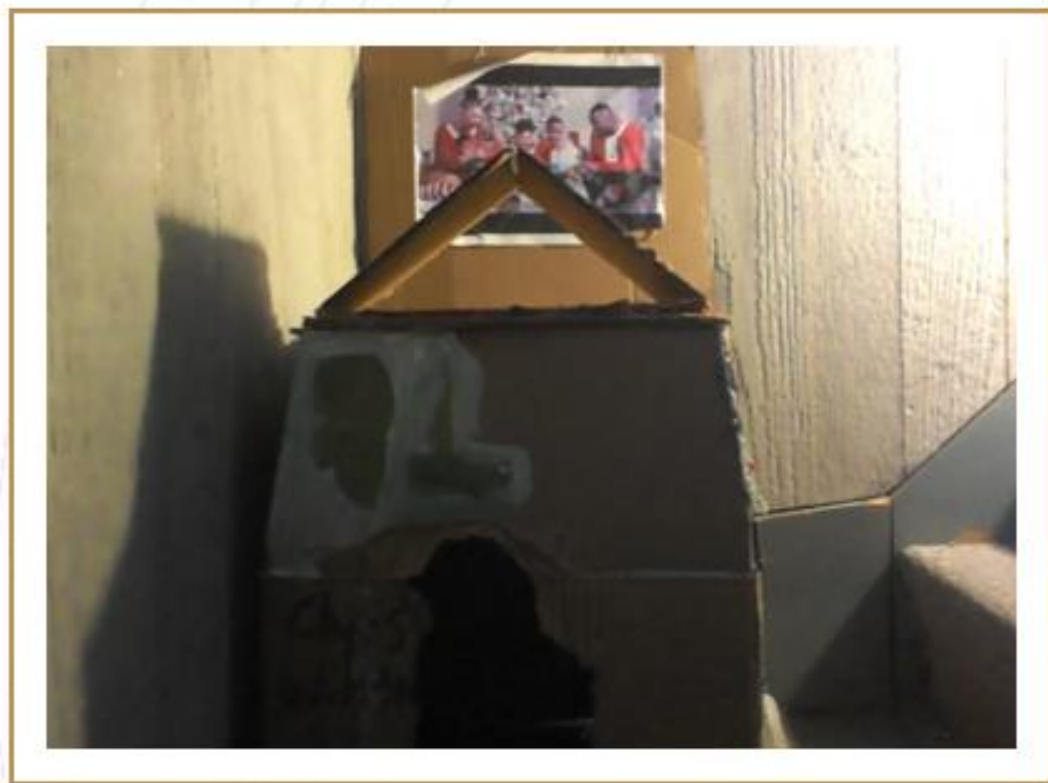

## My Project's Actions

- This is a doghouse I made from a cardboard box.

- By: Trinity

To reduce cardboard waste, I made a doghouse for my dog. I used cardboard boxes that I would have recycled. The boxes were packaging for items my grandma got at her job.

# My Project's Action's

- 'My item is a house with a robot and designs all over. But before I made the project the boxes were going to get thrown out.
- By: Kaelyn M

## My Project's Actions

By: Mashrura.N

This is a picture-frame movie scene inside of it.

To reduce cardboard waste, I made a picture-frame with a movie scene inside it. I used cardboard boxes that I would have recycled. The boxes were from the store.

# My Project's Actions

---

- **TO REDUCE CARDBOARD WASTE I MADE A CARDBOARD FISH TANK THAT IS A COOL DECORATION THAT THE CARDBOARD I WOULD HAVE JUST RECYCLED THE BOX I GOT FROM A FOOD BOX AND GOT TURNED INTO SOMETHING BRAND NEW**

Cardboard fish tank

By: Natalie

## My Project's Actions

- To reduce cardboard waste, I made a house and tiny people for my little brother. I made it the house out of a tea box. And I made the tiny people out of an amazon box.
- A house and tiny people By, Viviana

# Results & Impact

Reduce, Reuse, Recycle!

We did throw away less items! It was so great to be able to reuse items and come up with new things. We used the cardboard to make things that we could use every day. Other people can do the same. There is lots of inspiration on the web to help you reuse items.
