

DEVICE PICKUP UPDATE

Hello everyone! I hope this message finds you well. 😊 Ms. Hendricks emailed us last night with an update from the district in regards to the distribution of devices. In the email, she explained that if you were unable to pickup your child's device on Wednesday, unfortunately, you will need to wait two or more weeks. The iPads have been removed from the building to be inventoried. She is hoping to hear back from the district regarding a plan for a second round of pickups.

I've been trying my best to reach out to each family to be sure that your most current address is on file with the school. If your address has changed and I have not been able to reach you, please message me your address as soon as possible.

Along with the iPads, the district created a second packet for each grade level. If you were unable to pickup the device, you will still be able to pickup your child's packet. **The packets can be picked up on: Mondays, Wednesdays, and Fridays from 11:00am-1:00 pm.**

If there is anything I can assist you with, please do not hesitate to reach out to me.

Stay healthy & remember to smile!

Mrs. Roessler
