Tone Quality

With the exception of one alternative (Volare VOL702 Flute), the original bid instruments will provide the highest level of lifespan and durability. It is the expectation of the music department that the new instruments are constructed of the high quality caliber and craftsmanship in order to withstand the demands of 20 – 30 years of daily use.  With the exception of one alternative (Volare VOL702 Flute), the original bid instruments will provide the highest level of lifespan and durability. It is the expectation of the music department that the new instruments are constructed of the high quality caliber and craftsmanship in order to withstand the demands of 20 – 30 years of daily use.

Established Brands

It was determined by BPS instrumental music specialists that the alternate instrument bid options were not considered to have as highly reputable history of lifespan and durability as the instruments from manufacturers selected in the original bid.  It is the expectation of the music department that the new instruments are constructed of the high quality caliber and craftsmanship in order to withstand the
demands of 20 – 30 years of daily use.  With the exception of one alternative (Volare VOL702 Flute), the original bid instruments will provide the highest level of lifespan and durability.
