**Security Form—WNYRIC Data Warehouse (Level 1) Access
Western New York Regional Information Center**

This security form is used to establish access to reporting available via the **Western New York Regional Information Center's (WNYRIC) Data Warehouse (Level 1)**. It is used to establish access for an individual WNYRIC user account.

Security access is provided at a district level. This means any authorized users (administrators, principals, teachers) of a participating Local Education Agency (public school district, charter school, non-public school, or BOCES) can **view all data** collected from locations within the LEA and available in individual student reports (e.g., assessment scores) and aggregate reports for any student, teacher or location within his/her district

Instructions:

1. The requestor needs to complete Part A of the form **on-line**, print the form, review Parts B and C and sign in the space provided at the end of Part C for Authorized User.
2. The LEA's designated district data coordinator needs to review the form and sign Part C and also secure the signature of the district superintendent, charter school/non-public school leader or BOCES Superintendent as appropriate for the LEA.
3. Once the form is complete with all required signatures, please scan the form and e-mail it to the WNYRIC Data Warehouse Team at dataview@e1b.org. Please indicate "DW Security and your LEA name" in the Subject Line of the e-mail.
4. Upon receipt of the signed form, WNYRIC will review the form for completeness and establish access. The requestor and the LEA's DDC will be notified when this has occurred. WNYRIC requires two (2) business days after the form is received to establish access. This assumes there is no need to request additional information.

For assistance with this form, please contact the WNYRIC Data Warehouse at dataview@e1b.org.
