August 2021 Claim Audit Findings

Issue Category	Issues	Net Adjustments
Critical – Insufficient Supporting Documentation	25	\$ -

NOTE: With the exception of duplicate claims, the majority of claims are ultimately paid after resolution of any issues. The net adjustment represents actual changes of processed claims.

- **Critical Issues are those issues that may result in the complete disallowance or significant reduction of a claim and/or represent a violation of BOE policy or other governing regulations**
 - o **Critical – Duplicate (submittal of a previously processed claim):**
 - No occurrence.
 - TREND - Prior Month: 0, Current Month: 0.
 - **Recommendations / Actions / Notes:**
 - Note: Second consecutive month with no duplicates.
 - o **Critical - Insufficient Supporting Documentation (claim package is missing required approvals and / or proof of delivery and / or other required documentation):**
 - Twenty-five (25) invoices reviewed had insufficient or incorrect receiving records and/or were missing proof of delivery or other required supporting documentation. This included nine invoices totaling **\$90,670** (Lakeshore Learning) for instructional textbooks (no packing slips), and one invoice (no packing slip) for Logitech headset totaling **\$70,500** (CDW). All issues resolved.
 - TREND - Prior Month: 16, Current Month: 25. Additional emphasis on verification of MUNIS receiving records supported by scanned bills of lading and/or packing lists.
 - **Recommendations / Actions / Notes:**
 - Failure to enter receiving documentation represents the single largest delay in processing of AP payments and a significant compliance issue.
