January 2022 Claim Audit Findings

Issue Category	Issues	Net Adjustments
Critical – Insufficient Supporting Documentation	10	\$ -
Critical – Violation of Purchase Order (PO) / Contract Terms	1	\$ -
Non-Critical – Clerical	4	\$ (100.00)
Grand Total	15	\$ (100.00)

NOTE: With the exception of duplicate claims, the majority of claims are ultimately paid after resolution of any issues. The net adjustment represents actual changes of processed claims.

- **Critical Issues are those issues that may result in the complete disallowance or significant reduction of a claim and/or represent a violation of BOE policy or other governing regulations**
 - o **Critical – Duplicate (submittal of a previously processed claim):**
 - No occurrence.
 - TREND - Prior Month: 0, Current Month: 0.
 - **Recommendations / Actions / Notes:**
 - Third consecutive month with no duplicates.
 - o **Critical - Insufficient Supporting Documentation (claim package is missing required approvals and / or proof of delivery and / or other required documentation):**
 - Ten (10) invoices reviewed had insufficient or incorrect receiving records and/or were missing proof of delivery or other required supporting documentation. This included an invoice totaling **\$16,373** (Bill Fritz Sports Corp) for sporting goods equipment (no proof of delivery), and two invoices (no proof of delivery) for food products totaling **\$10,883** (US Food Service of Buffalo). All issues resolved.
 - TREND - Prior Month: 26, Current Month: 10. Additional emphasis on verification of MUNIS receiving records supported by scanned bills of lading and/or packing lists.
 - **Recommendations / Actions / Notes:**
 - Failure to enter receiving documentation represents the single largest delay in processing of AP payments and a significant compliance issue.
