2.0 PURPOSE OF REQUEST FOR PROPOSAL AND GENERAL PROVISIONS

2.1 PURPOSE OF THE REQUEST FOR PROPOSAL

A 21st Century Technology Vision for the Buffalo Public Schools

21st century societies are increasingly dependent on information. Successful functioning in society demands the ability to problem solve using a variety of technological tools, the ability to communicate clearly, as well as the ability to interpret massive amounts of ever-changing information.

It is the Buffalo Public School District’s purpose as reflected in the Buffalo Comprehensive District Education Plan, to graduate students with the ability to live and work successfully in the twenty-first century.
It is the District’s belief that the use of technology, as a tool, will improve teaching and learning. The use of technology in the classroom fosters a natural integration of curriculum, thus empowering students to take command of their learning. Technology accommodates a wide range of learning styles and levels the learning field for students. It fosters collaboration, cooperation, and is highly motivational for many learners.

A critical component of education is equitable and universal access to technology, media, and information resources. The Buffalo Public Schools’ vision of learning through technology emphasizes the importance of all students having equitable access to and use of technology. The District aims to ensure that all groups of students benefit from effective technology use, and are given the most current and applicable technologies.

The District respects and relies on its teaching staff as key implementers of the technology plan. This belief is supported by a commitment to provide the District staff with numerous opportunities for measurably effective professional and personal growth. Through this professional development, teachers will function as facilitators, preparing students to act as explorers who take ownership of their own learning in order to meet or exceed the NY State Learning Standards.

BPS seeks to find innovative, yet cost-effective ways to organize, use and share information to improve their services. Through the use of web based data management software, schools can effectively use information in ways to affect maximum impact and maintain fiscal responsibility. This same software can offer administrators, teachers, parents and other constituents an easy way to access information on school and student performance in a secure environment. It is the intention of the BPS to implement this software through their management plans.

The District sees the integration of technology into the classroom as the catalyst to independent learning which is the tool for breaking down barriers that society imposes on those who are not technologically literate.

The Buffalo Public Schools is regarded as one of the premier urban school Districts in New York State. Serving 34,000 students in over 65 facilities. The District strives to bring exemplary teaching practices and unparalleled opportunities to its diverse student population.

BPS is requesting proposals from qualified service providers interested in providing services as outlined below and compliant with E-Rate standards. BPS greatly appreciates your assistance. Your response to this RFP will allow us to fully understand the scope of your organization’s experience and qualifications in the area of this RFP’s services.

FREEDOM OF INFORMATION LAW

The New York State Freedom of Information Law as set forth in Public Officers Law, Article 6, Sections 84-90, mandates public access to government records. However, bids submitted in response to this RFP may contain technical, financial background or other data, public disclosure of which could cause substantial injury to the Bidder’s competitive position or constitute a trade secret. Bidders who have a good faith belief that the information submitted in their bids is protected from disclosure under the New York Freedom of Information Law must clearly identify the pages of the bids containing such information by typing in bold face on the top of each page, “The bidder believes that this information is protected from disclosure under the state freedom of information law”. The BPS assumes no liability for disclosure of information so identified, provided that the BPS has made a good faith legal determination that the information is not protected under applicable law or where disclosure is required to comply with an order or judgment of a court of competent jurisdiction.

CERTIFIED CHECK, ETC. (EXCEPT AS HEREINAFTER NOTED)

If the gross total amount quoted is $100,000 or more, a certified check must be submitted with your bid. No bid will be considered unless it shall be accompanied by a certified check, banker's check, draft, or money order which shall be payable to the order of the BPS for five percent (5%) of the amount of the bid. Said certified check, banker's check, draft, or legal tender and the amount thereof will be retained as liquidated damages by the BPS if the successful bidder shall fail to enter into a contract and give security for the performance as hereinafter provided.

BID BOND

In lieu of certified check, banker's check, draft, money order, or legal tender, bidders may furnish proposal or bid bonds, the amount thereof to be for not less than Twenty-five percent (25%) of the amount of the bid and shall be executed by the Bidder as principal, and as surety by a duly incorporated Surety Company authorized to do business under the laws of the State of New York. Such proposal or bid bond shall be conditioned for entering into contract by the Bidder and to furnish security for the performance thereof as hereinafter provided.

TAXES

Bids submitted on these specifications shall not be made subject to any Federal, State, or County Taxes.

SUBCONTRACTORS (PURSUANT TO SECTION 408 OF THE CITY CHARTER)

The successful bidder shall submit a list of proposed subcontractors to the BPS for its approval and obtain written consent thereto prior to the execution of the Form of Agreement. The subcontracting of any part of the work or services under this contract to any person, firm or corporation by whom a proposal was submitted to the BPS for the same contract shall be absolutely prohibited.
PREVAILING WAGE RATE INFORMATION / INSTRUCTIONS

Under New York State Labor Law, contractors and subcontractors must pay the prevailing rate of wage and supplements (fringe benefits) to all workers under a public work contract. Employers must pay the prevailing wage rate set for the locality where the work is performed. Prevailing wage is the pay rate set by law for work on public work projects. This applies to all laborers, workers or mechanics employed under a public work contract. The Bureau of Public Work administers Articles 8 and 9 of the New York State Labor Laws:

Article 8 covers public construction
Prevailing Wage Schedules are issued separately for “General Construction Projects” and “Residential Construction Projects” on a county-by-county basis.

General Construction Rates apply to projects such as: Buildings, Heavy & Highway, Tunnel and Water & Sewer rates.

Article 9 covers building service contracts
The Labor Law requires public work contractors and subcontractors to pay a service employee under a contract for building service work for a public agency, a wage of not less than the prevailing wage and supplements (fringe benefits) in the locality for the craft, trade, or occupation of the service employee. Such a public work building service contract must be in excess of one thousand five hundred dollars ($1,500.00).

Building service employee includes, but is not limited, to watchman, guard, building cleaner, porter, janitor, gardener, groundskeeper, stationary fireman, elevator operator and starter, fire safety director, window cleaner, and occupations relating to the collection of garbage or refuse, and to the transportation of office furniture and equipment, and to the transportation and delivery of fossil fuel but does not include clerical, sales, professional, technician and related occupations.

Building service employee also does not include any employee to whom the provisions of Article 8 are applicable.

Wage schedules are issued on a county-by-county basis. They contain the pay rates for each work classification. Under State law, all contracts between a government entity and a contractor must contain these schedules.

CERTIFICATION OF EFFECTIVE INSURANCE

Prior to the signing of the contract, the Contractor shall furnish the BPS, for approval, a certified copy of each kind of insurance policy herein required of the Contractor, together with certificate of insurance, evidencing that the required insurance is in effect irrespective as to whether the Contractor or the BPS is the named insured.

Certificate shall contain a provision providing that it shall not be cancelled or changed by the Contractor or Insurance Company without ten (10) days prior written notice to the Buffalo Board of Education.

THE BUFFALO PUBLIC SCHOOLS WILL REQUIRE THE EXECUTION OF A FORMAL CONTRACT BY THE SUCCESSFUL RESPONDENT

The Contractor shall not assign, transfer, convey, sublet or otherwise dispose of this contract, or his right, title or interest therein, or his power to execute the same, to any other person, company or corporation, without the previous consent in writing of the BPS.
