SUBCONTRACTORS (PURSUANT TO SECTION 408 OF THE CITY CHARTER)

The successful bidder shall submit a list of proposed subcontractors to the BPS for its approval and obtain written consent therefor prior to the execution of the Form of Agreement. PREVAILING WAGE RATE INFORMATION / INSTRUCTIONS

Under New York State Labor Law, contractors and subcontractors must pay the prevailing rate of wage and supplements (fringe benefits) to all workers under a public work contract. Employers must pay the prevailing wage rate set for the locality where the work is performed. Prevailing wage is the pay rate set by law for work on public work projects. This applies to all laborers, workers or mechanics employed under a public work contract. The Bureau of Public Work administers Articles 8 and 9 of the New York State Labor Laws:

Article 8 covers public construction
Prevailing Wage Schedules are issued separately for “General Construction Projects” and “Residential Construction Projects” on a county-by-county basis.

General Construction Rates apply to projects such as: Buildings, Heavy & Highway, Tunnel and Water & Sewer rates.

Article 9 covers building service contracts
The Labor Law requires public work contractors and subcontractors to pay a service employee under a contract for building service work for a public agency, a wage of not less than the prevailing wage and supplements (fringe benefits) in the locality for the craft, trade, or occupation of the service employee. Such a public work building service contract must be in excess of one thousand five hundred dollars ($1,500.00).

Building service employee includes, but is not limited, to watchman, guard, building cleaner, porter, janitor, gardener, groundskeeper, stationary fireman, elevator operator and starter, fire safety director, window cleaner, and occupations relating to the collection of garbage or refuse, and to the transportation of office furniture and equipment, and to the transportation and delivery of fossil fuel but does not include clerical, sales, professional, technician and related occupations.

Building service employee also does not include any employee to whom the provisions of Article 8 are applicable.

Wage schedules are issued on a county-by-county basis. They contain the pay rates for each work classification. Under State law, all contracts between a government entity and a contractor must contain these schedules.
