Setting up the Schoology and Infinite Campus Integration

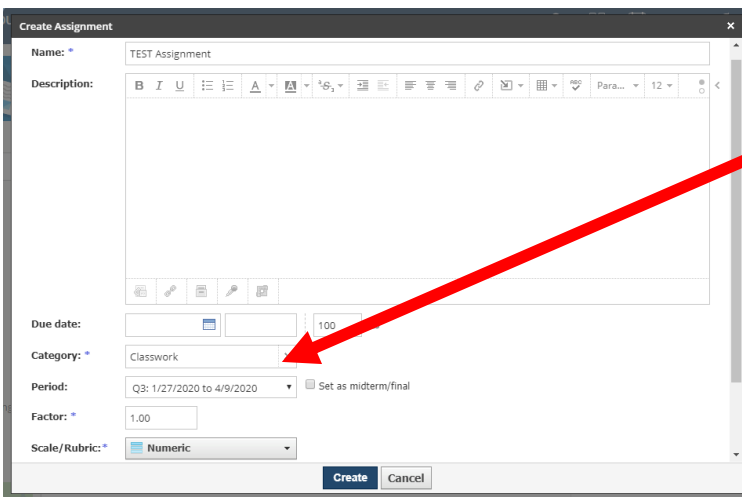

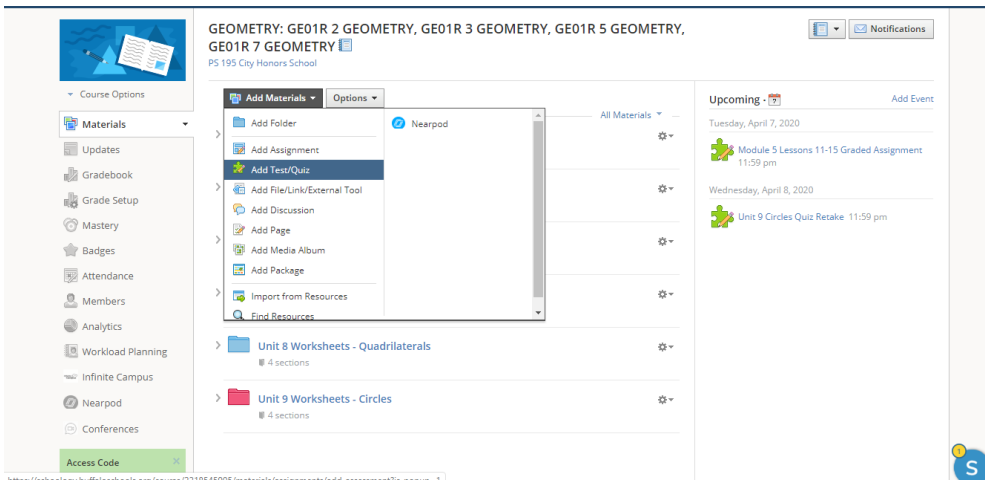

1. Go to the Courses tab and choose the course you would like to connect to Infinite Campus for grading.

2. Click on Infinite Campus to link your Schoology and IC accounts and approve the connection.

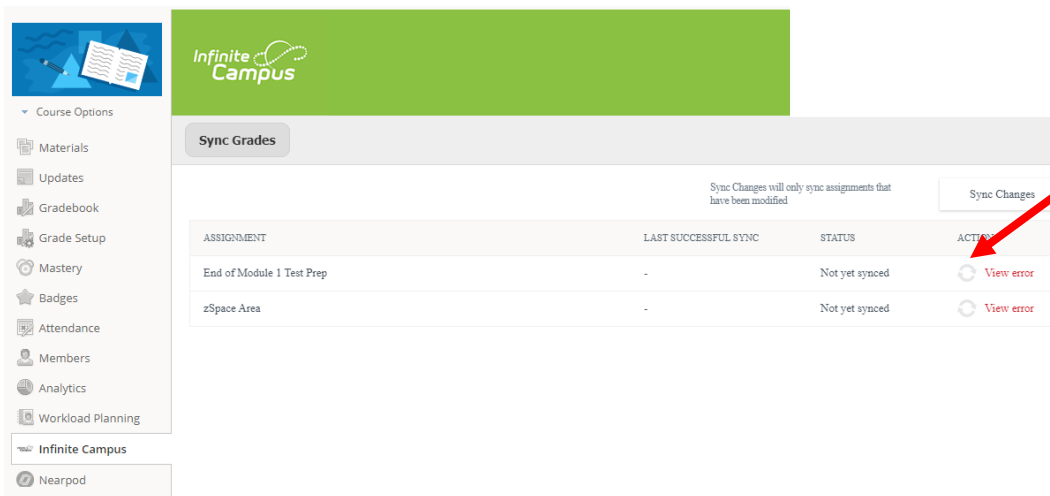

Creating New Assignments

1. Create an assignment. Your assignment must have a category. It can't be "ungraded".

Grading Categories are not passed from Schoology to Infinite Campus. Instead, categories are configured and set in the Infinite Campus gradebook based on the BPS Grading Handbook. Learn more in this [video](#) by Infinite Campus.

Syncing to Infinite Campus

2. Go back to the Infinite Campus tab in Schoology. Click on the sync symbol under "ACTION".

ASSIGNMENT	LAST SUCCESSFUL SYNC	STATUS	ACTION
TEST	10:22 AM	Successful	
Test assignment	10:14 AM	Successful	

3. When the sync returns "Successful" it has been transferred to your IC account.

Frequently Asked Questions:

If I delete an assignment in Schoology, will it delete from Infinite Campus?

No. If an assignment is deleted from Schoology, grades/assignment remain in Infinite Campus.

Can I change the grading scale?

The grading scale can't be changed once the assignment is created (ie: from numeric to alpha or vice versa).

Do I have to set a due date?

If no due date is established when the assignment is created, the end of the current marking period serves as the due date for the assignment.
