@ 11:30

Sight Words

Curriculum

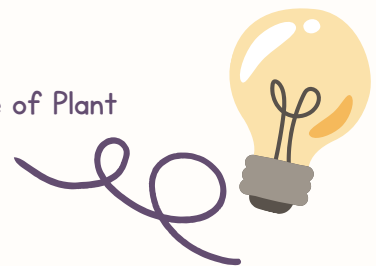

Reading: This month we will focus on cause and effect and sequencing events that happen throughout a story. During learning stations, students will apply their comprehension skills when reading "just right" reading books. They will build and read words with digraphs and blends. Students will also continue to identify the difference between short and long vowel sounds.

Writing: We will continue to focus on responding to a text by writing complete sentences using capitalization, punctuation, nouns, and adjectives. Students will use time order words such as first, next, then, and last and focus on word choice when writing a personal narrative.

Math: We will complete Module 4 this month and begin Module 5. Module 5 will focus on working with numbers from 11-20. Your child will continue to build their fluency by counting by 2's to 100 and adding and subtracting within 10.
