TESTIMONIALS

Nicole has been my massage therapist for over a year. She is professional and very knowledgeable on identifying stress points in my neck and back and relieving overall tension. I would highly recommend her as your massage therapist.

- Dr. Sue Baldwin
District Wellness Coordinator

I am so happy I found Nicole! I've been to several other therapists and never found the perfect fit. Nicole is extremely talented and knowledgeable in her field. She is the only person who has been able to "cure" me of my intense headaches caused by physical and emotional stress. Nicole's genuine care for my well-being, calming yet fun personality, her ability to relate, listen, adjust and answer questions while displaying a high level of professionalism are all qualities that make me feel extremely comfortable during my sessions. I have recommended Nicole to several friends and they are all as equally impressed as I am.

- Paja Grasevova,
University at Buffalo Admissions Assistant
