## Classes

As a teacher, your class should be set up in VPORT before you begin. It may be an empty record or a populated one, depending on the district. [If a class record does not exist, please contact your campus coordinator and request that one be created for you.](#)

- When you log in, the page will default to the **Class** section of the **MY RESULTS** tab. This is the teacher's home page.
- If a complete setup has been performed, the students in your class will be listed. [If no students are listed, skip to the \*\*Managing the Student Roster\*\* section on page 9 of this guide.](#)
- For more information about the reports available for printing and analysis, see **Reporting** on pages 14–20 of this guide.

**Note**  
You will be asked to complete a Voyager Teacher Survey when logging in for the first time after a benchmark has been completed. For more information about the survey, see **Using the Implementation and Resources Tools** section on page 22 of this guide.
