Camping out in a tent is different from staying in a motel. When you go camping, you sleep in a sleeping bag on the ground. When you stay in a motel, you sleep in a comfortable bed. In the evening when it gets dark, flashlights and stars provide light for campers. In a motel, you can turn on the electricity. Both camping out in a tent and staying in a motel are fun vacations. Although they are different in many ways, both allow you to spend time with your family and to see new places.
