Camping out in a tent is different from staying in a motel. When you go camping, you sleep in a sleeping bag on the ground. When you stay in a motel, you sleep in a bed. In the evening when it gets dark, flashlights and stars provide light for campers. In a motel, you can turn on the electricity. Although they are different in many ways, both allow you to spend time with your family and to see new places. Both camping out in a tent and staying in a motel are fun vacations.
