76 Students took the Survey

How easy has it been for you to USE an iPad?

83% simple or rather simple

11% neither simple nor difficult

6% difficult or rather difficult

To what degree has the iPad HELPED YOUR LEARNING in this Project?

95% helpful or very helpful

5% somewhat helpful

How well can you manage TYPING on the iPad?

82% easy or relatively easy

13% neither easy nor difficult

5% difficult or relatively difficult

Would you prefer to use an iPad FOR OTHER PROJECTS?

89% yes

11% no

Now that you have used the iPad in class, HOW DO YOU FEEL about iPads?

92% love them or like them

5% neutral

3% don't like them

I would PAY ATTENTION MORE in Social Studies if we did projects like this all the time.

69% agree or strongly agree

8% neutral

3% disagree or strongly disagree

I am BEGINNING TO LIKE Social Studies more, as a result of this project.

83% agree or strongly agree

10% neutral

7% disagree or strongly disagree

I think it is IMPORTANT to learn about Social Studies.

92% agree or strongly agree
5% neutral
3% disagree or strongly disagree

I am INTERESTED IN LEARNING MORE about the American Revolution.

87% agree or strongly agree
10% neutral
3% strongly disagree

I prefer to USE TECHNOLOGY (instead of just reading the textbook), in order to learn about Social Studies.

87% agree or strongly agree
12% neutral
1% strongly disagree

I UNDERSTAND Social Studies more when the teacher uses VIDEOS, PICTURES, ARTIFACTS, and DOCUMENTS.

89% agree or strongly agree
7% neutral
4% disagree or strongly disagree

I will TELL OTHER PEOPLE what I learned about the American Revolution.

74% agree or strongly agree
20% neutral
6% disagree or strongly disagree

I like working IN GROUPS when learning about Social Studies.

80% agree or strongly agree
15% neutral
5% disagree or strongly disagree

I like to DO MY OWN RESEARCH when I am learning about Social Studies, instead of the teacher giving me all the information.

74% agree or disagree
14% neutral
12% disagree or strongly disagree

Unedited Student Comments

What did you like MOST about using the iPads for this Project?

I like the most about the iPads is that I only have to touch to get words to type.

What I like about using the project is I liking have Internet on my desk.

I liked when I got to take pictures about the person I had to do on the project. It was very interesting about things that I didn't know.

What I like about this iPad it is kind of awesome learning all about the American Revolution on the iPads.

I like when we looked up pictures and were finding details about the person or the event.

I liked to make the videos at the end. I also liked the map when we searched up Boston. I also liked how we got to search up pictures of our person.

I liked taking the pictures because it was cool.

I like every thing about it because it is faster to get answer.

Learning about history.

I liked when we took the picture and recorded ourselves talking about the Boston tea party.

My favorite thing that I liked about the iPads for the project was when we got to record our voice on it.

What did you like LEAST about using the iPads for this Project?

What I didn't like was that we didn't use all the apps.

What I didn't like is not getting to read books in the iPad.

I least like about iPads is when I had to type when that happened, why that happened, who that happened to.

I like least about this project is that it is not fun because there is a lot of writing and TOO MUCH WORK!

I didn't like when we only had to use these for social Studies

I didn't like it when we had to read our answers out loud to be recorded.

There is really nothing that I didn't like about this I pad project. It was all fun and easy!!!!

The thing I like least about the iPads was when we finish our work but not being able to go on school game websites.

It was hard making the research with my group.

I didn't like giving them BACK!

What was your FAVORITE PART of doing this iPad Project in Social Studies?

Recording was my favorite part.

My favorite part of this project was the end. The end was my favorite part because I get to see what I have been doing the whole time and I can see how well my work came out instead of waiting for the teacher to give us a grade you can tell how you did by just looking at what u wrote or what you did on the iPads. The technology is so fast even faster than the teachers so it is really exciting to use iPads instead of writing with your hands it takes so long.

My favorite part of doing this was when we recorded our voice on the iPad and then looking for colonial music.

My favorite part about the project was looking up famous people and learning about them.

I did like this project because we got to play and do work on all of these projects I wish we can do this all over again.

My favorite part of this I pad project is the fun and mostly about learning new, different things!

The best part was making our movies.

My favorite of doing this is learning more about people who saved America and had speeches and was strong and brave.

I liked that that we used the iPads and not the textbook because we found pictures and facts and famous people also you can't find all that in a text book you can't find a lot of stuff. On the iPad we went on different websites and a lot more.

My favorite part was when we worked in groups to do our awesome and amazing project.

I get to learn more and I love looking at the pictures of the subject instead of pictures on the textbook.
