

# Reading in Math

## 1<sup>st</sup> - Read for Understanding

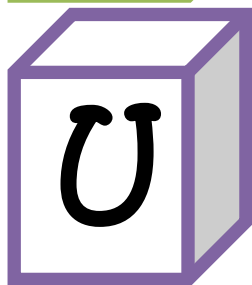

Read the problem and ask yourself:

- Are there any vocabulary words I do not understand?
- Can I use the context of the question to figure them out?

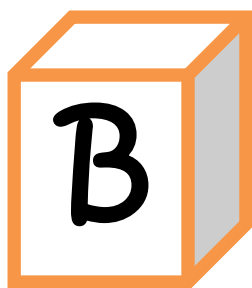

## 2<sup>nd</sup> - Reread the Problem

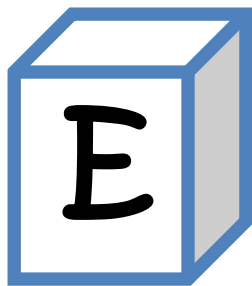

Circle the key numbers

Underline the key words

Box the question/task

Eliminate unnecessary information

## 3<sup>rd</sup> - Brainstorm Strategies

Reread the question being asked.

Make a list of possible strategies to solve this problem/task.

## 4<sup>th</sup> - Interpret the Solution

Solve the problem and check that the answer makes sense.

Ask yourself:

- Did I answer the question being asked?
- Did I complete the task?
