

Buffalo Public Schools Four Year Financial Plan (Revised) 2017-18 to 2020-21

Executive Summary

April 25, 2018

Four Year Financial Plan 2017/18 to 2020/21 (revised to 2017/18 to 2021/22)

Executive Summary

The Buffalo City School District has developed the attached comprehensive Four Year Financial Plan (the Plan) to assist in monitoring the approved 2017/18 budget, and in the development of the 2018/19 and subsequent years' budgets. The initial projections in the Plan outline the trajectory of major revenue and expenditure categories over the period of fiscal years 2017/18 to 2020/21, with an additional year, 2021/22, added in April 2018 to maintain a four year future outlook (i.e. a new year will be added each year, However, the Plan will still compare the original four years to the actual results over those four years). The Plan outlines potential surplus/deficit amounts, while using assumptions available as of June 2017, and revised in April 2018. The projections, however, do not include all deficit closing measures expected to be taken in years 2019/20 and beyond, since projected deficits in those years will ultimately be closed in the annual budget process. Therefore, deficit closing actions not included in the revenue and expenditures projections are outlined separately in the document and are continually being analyzed and acted upon.

The four year (2017/18 to 2020/21) projected deficit in the Plan as adopted on June 20, 2017 was \$100.1 million, while fund balance projected to be remaining at June 30, 2021 was projected to be \$40.2 million in the Unassigned category and \$118.4 million in total. We are pleased to report that as of April 18, 2018, the projected deficit over the 2017/18 to 2020/21 period has been reduced by \$20.5 million to \$79.6 million, while fund balance projected to be remaining at June 30, 2021 is now projected to be \$58.5 million (up \$18.3 million) in the Unassigned category and \$137.4 million in total (up \$19.0 million). The remainder of this document provides additional details on the revised Plan.

Results from June 20, 2017 through April 18, 2018

In 2017/18, the revised Plan includes projected revenues of \$868.7 million against expenditures of \$884.9 million or a deficit of \$16.2 million (vs. \$22.0 million originally budgeted.) In 2018/19, the revised Plan includes revenues of \$897.4 million and expenditures of \$916.4 million or a deficit of \$19.0 million.

As of June 20, 2017, the projected deficit amounts in the general fund accumulated to \$100.1 million over four years (2017/18 to 2020/21) and were equal to 2.7% of total expenditures of \$3.7 billion over that same time period. As of April 28, 2018, the cumulative deficit amounts projected for this same four year period has been reduced by \$20.5 million to \$79.6 million, while the District has included costs of the settled the BCSA Administrators' and Substitutes' contracts, which had been outstanding since 2004 and 2013, respectively. Additionally, the Plan includes salary increases for bargaining units with outstanding contracts of 1.5% annually, including teachers starting in 2019/20, along with another \$9.0 in contingency set aside for contract settlement costs over the course of the next four years. In large part, this improvement is due to positive budgetary performance in 2017/18 and the balancing of the 2018/19 budget for this Plan. Balancing the 2018/19 budget required the yield from costs savings initiatives outlined in this Plan, along with some reductions in the schools and central office. The District must fit spending within revenue constraints and in recognition that students continue to leave for charter schools, with a nearly net 1,000 pupil drop since 2014/15. These proposed reductions are in line with the necessary budget closing measures outlined to the Board in memos from the Superintendent on April 4, 2018 and April 13, 2018 and in presentations

to the Board on April 11, 2018 and April 18, 2018. Between the adoption of the original 2014/15 budget and 2017/18, approximately 582 FTEs have been added, while overall pupil counts have dropped close to 1,000.

The accumulated fund balance reserve projections (the available balances, not amount used) were originally (as of June 20, 2017) projected to be \$40.2 million for Unassigned Fund Balance and \$118.4 million Total Fund Balance at June 30, 2021. As of April 20, 2018, those accumulated fund balance reserves are projected to increase to \$58.5 million for Unassigned Fund Balance and \$137.4 million for Total Fund Balance, an increase of \$18.3 million and \$19.0 million, respectively, at June 30, 2021. The increase in fund balance projected at June 30, 2021 is the result of positive overall financial performance vs. the budget in 2016-17 of \$18.2 million and projected positive performance vs. the budget in 2017-18—essentially, the usage of fund balance reserves, particularly in 2016/17 when the Teachers Contract was settled, was much lower than projected, while in 2017-18, the District expects to use \$5.8 million less reserves than originally budgeted. This is due, in part, to conservative budgeting by the District, given the outstanding union contracts, where the ultimate cost of those contracts is unknown.

These results, thus far, are positive, showing both an improvement in the District's projected financial position from what was projected on June 20, 2017 and a projected improvement of future budgets as a result of balancing the 2018/19 year in the Plan. However, there is no guarantee that future performance will be positive.

Projection Assumptions

The revenue and expenditure assumptions in the Plan are outlined on pages 28 to 55 of the document. Because the District is 85% funded by the State, State aid assumptions are the main drivers of future revenue growth for the District. The most significant State aid component is Foundation Aid, where a 3.0% annual growth rate is projected. Foundation Aid increases for the last six years have been approximately 3.3% annually; however, there is no guarantee similar increases will continue in the future and future Foundation Aid increases may be negatively impacted by economic conditions, changes in State law or other funding priorities of the State. Most other State aid categories are formula driven and not as susceptible to economic conditions, but could be changed through legislation.

Economic conditions can also negatively impact other costs like fuel and utilities, which are currently rising but still below historic levels. Pension costs, which have been declining for several years, are still above historic levels, but could rise if there is an economic downturn impacting the financial markets. In fact, in 2018-19, the Teachers Retirement System made several actuarial adjustments that resulted in an increase in pension rates by 8.5%. The Plan assumes increased fuel and utility costs, and relatively flat pension rates, not reaching historical averages by the end of the Plan.

Salary costs are based on existing contractual increases, plus 1.5% in years where there is no contractual increase, plus another \$5.0 million in the contingency account starting in 2017-18, growing by \$500,000 annually thereafter. With \$4.0 million of this annual amount being transferred out in the Plan for the projected costs of the BCSA contract and none being transferred out for the substitute contract which is expected to be funded through a reduction in utilization, approximately \$9.0 million is left in contingency over the next four years. The 1.5% salary increases are projected to be net of any savings included in future contract settlements, so salary increases may be larger, but would have offsetting reductions in health insurance or other costs. Changes in other assumptions, such as a reduction in State aid, may cause the District to reassess the affordability of salary

increase assumptions. Starting in 2018/19, the District incorporated a \$2.0 million vacancy contingency in the Plan in recognition of the historical vacancies that exist as a result of typical staff turnover in an organization with over 4,700 FTEs in the General Fund alone.

Fund Balance Usage

As outlined in the document, the original utilization of fund balance was recommended to be \$46.0 million over the course of the Plan. As of April 18, 2018, the budgeted fund balance usage is recommended to increase by \$5.0 million to \$51.0 million, but is still projected to be zero annually by the end of the Plan. This increase in planned fund balance usage is due to three factors: 1) the Teachers Retirement System increased pension rates for 2018-19 above what was projected, resulting in an approximately \$2.0 million increase in pension costs. This \$2.0 million in fund balance usage is expected to be drawn from the Assigned Fund Balance for OPEB and Other Benefits; and 2) with the conclusion of JSCB, the District needs to begin an facilities painting rotation and \$1.0 million will be utilized from the Assigned Fund Balance for Other Capital Needs and Repairs to start the project; and 3) in 2019-20, the teacher contract will be expired and another \$2.0 million in fund balance set aside for union contract settlement is expected to be utilized to fund a portion of salary increases if a contract is settled.

Fund balance usage was projected to be \$22.0 million in 2017/18 and is now projected to be \$16.2 million while fund balance usage is projected to be \$19.0 million in 2018/19; \$10.0 million in 2019/20; and zero in 2020/21 and 2021/22—the projected reduction in 2017/18 offsets the increases noted above in 2018/19 and 2019/20. Based on Plan projections, total remaining fund balance will be \$137.4 million, and unrestricted fund balance will be \$58.5 million, at June 30, 2022. The additional projected fund balance amounts are included as potential deficit closing measures and additional reserves could be utilized in the event unforeseen circumstances happen, such as general economic downturn negatively impacting State aid or causing a spike in pension costs. However, once fund balance is utilized, it can only be replenished by future surpluses, and it is difficult to run surpluses in challenging economic times, so cost reductions, such as those outlined below may be necessary, along with a plan to replenish reserves, if additional fund balance is to be utilized.

Deficit Closing Measures

The specific deficit closing measures are outlined on pages 13 to 20 of the Plan, and as originally presented on pages 21 to 26. The cost savings measures are color coded in order of priority and grouped into four sections that match closely with the color coding noted further below:

- 1) Other revenue and fund balance items (purple, yellow, orange)
- 2) Efficiencies and savings that are planned or in process (yellow)
- 3) Other cost reductions that may become necessary (orange)
- 4) Grants through national foundations (purple)

Purple items are speculative revenue items in nature, because they rely, in large part, on decisions outside the District's control. The grants through national foundations are separately listed, as this is a significant potential source of funding which reflects a new approach to secure outside funding for the District.

Items coded in yellow are generally cost reductions through efficiencies. These items are not anticipated to reduce the level of service to District students, instead they are allocating dollars more efficiently or obtaining the same level of service at a reduced cost. Many of these items are in process or being analyzed now and will be brought to the Board for approval through regular Board recommendations or through the District budgeting process.

Items coded in orange are reductions in cost that may impact the level of service to students, since they may impact staffing positions in schools. However, staff reductions should not necessarily be considered a reduction in services to students as the District's student counts are shrinking, the reduction could be a scheduling efficiency, and schools previously identified as out of time are continuing to phase out, which will further reduce duplicative staffing. In the event that speculative revenues (purple) and efficiencies (yellow) are unable to close the gap in any year of the Plan, or if student counts drop, these cost reductions may be necessary to incorporate into District budgets.

By design, the total amount of deficit closing measures exceeds the total amount of deficits in the Plan to ensure there are enough measures that can be taken over the course of the Plan to close the gap. In many of the planned initiatives, to be conservative, no savings have been shown because estimates are not known at this time and they may be considered speculative.

Pages 13-20 also outline the results of many of these initiatives through a little under one year. Among the many positive results projected for 2018/19 are a significant improvement in projected retiree health insurance costs of \$2.8 million, employee health insurance of \$0.7 million, State revenues maximization of \$0.9 million, and a reduction in OTPT costs of \$1.0 million. Additionally, the resulting bell time changes reduced transportation costs by approximately \$1.0 million, but were offset by growing fuel costs and four new charter schools requesting transportation in 2018/19, while substitute costs reductions based on utilization have been estimated at \$0.6 million, and may largely offset the \$1.0 million annual cost of the new substitute contract ratified on February 14, 2018.

Summary of Documents in the Plan

Page 4 contains the revised 4 Year Financial Plan projections of revenues, expenditures, and deficits, as of April 18, 2018.

Page 5 contains the original 4 Year Financial Plan projections of revenues, expenditures, and deficits, as of June 20, 2017, and is highlighted in grey.

Page 6 shows the change between the original (June 20, 2017) and revised (April 18, 2018) revenue, expenditure, and deficit projections.

Page 8 contains the revised fund balance projections (both annual usage and year end remaining balances) over the course of the Plan, projected as of April 18, 2018.

Page 9 contains the original fund balance projections (both annual usage and year end remaining balances) over the course of the Plan, projected as of June 20, 2017, and is highlighted in grey, along with the change between the original (June 20, 2017) and revised (April 18, 2018) fund balance projections.

Page 11 summarizes the revenues, expenditures, and deficits over the course of the Plan and also includes a summarization of the total revised deficit closing measures shown later in the document. This page also includes Grants and Food Service, which supplement the District's General Fund. These funds are self-balancing and separate from the General Fund.

Pages 13 to 20 show the deficit closing measures in the original June 20, 2017 Plan, with revised savings targets, the original explanations highlighted in grey, and a revised explanation column that outlines what the District has accomplished from June 20, 2017 to April 20, 2018. Readers will note that in many instances, to be conservative, the Plan does not show actual deficit reduction numbers unless we were confident in their estimate or execution. This aligns closer with the analysis completed by the Buffalo Fiscal Stability Authority, which excludes certain deficit closing measures as speculative, and largely outside the control of the District. Once the 2018-19 budget is complete an additional analysis will take place to identify additional cost savings, cost avoidance or revenue generations initiatives that might be added to the Plan.

Pages 21 to 26 show the deficit closing measures in the original June 20, 2017 Plan, unchanged and highlighted in grey.

Pages 28 to 29 show the next four years of projected revenues in more detail than the summary on page 4. The District projects revenues at this level of detail in the Plan. This includes the General Fund, Grants Fund and Food Service Fund.

Pages 31 to 33 show the next four years of projected expenditures in more detail than the summary on page 4. The District projects expenditures at this level of detail in the Plan. This includes the General Fund, Grants Fund and Food Service Fund.

Pages 35 to 40 show the next four years of projected revenues, with the detailed assumptions used for each line item.

Pages 42 to 55 show the next four years of projected expenditures, with the detailed assumptions used for each line item.

Pages 57 to 88 show a projection of FTEs over the course of the Plan. There is an overall slight decline projected, which is in keeping with the overall projections of Plan that shows students will continue to depart for charter schools.

On pages 60 to 62 are cash flow reports for 2016/17 (actual), 2017/18 (March 2018 year to date), and 2018/19 (projected as of April 2018). These cash flows are based on Plan projections and show a strong cash position in the periods shown.

Final Note - The purpose of this document is to outline the actions being taken or recommended by District management to eliminate potential fiscal deficits projected in this Four Year Financial Plan. Board member suggestions or recommendations for further cost reductions and/or deficit closing measures are always welcome. It must be emphasized that this document is based on information and assumptions available at the time it was created and/or revised and that actual results may differ, possibly materially, from the projections. Additionally, it must be noted that this document is meant to be an overall guide, but does not replace the annual budgeting process and does not bind the District to take any action in the Plan or preclude the District from taking actions not in the Plan. Actions and the resulting savings outlined in the Plan should be considered flexible and changeable based on new information and circumstances. Though this Plan is meant to be thorough, additional costs savings, cost avoidance and revenue generating initiatives outside of the Plan may also be undertaken. This document will be periodically updated and amended to ensure it continues to provide sound fiscal guidance over the course of the next four years.

Buffalo Public Schools Four Year Financial Plan (Revised) 2017-18 to 2020-21

Revisions include:

- 1) Final results for 2016-17
- 2) Updated financial projections for 2017-18 to 2020-21
- 3) Balanced 2018-19 draft budget \$916.4 million or \$22.2 million and 2.5% above 17/18
- 4) A comparison of the original plan approved on June 20, 2017 to updated projections for revenues, expenditures, and fund balance
- 5) Inclusion of a 5th projection year, 2021-22
- 6) Current status of deficit closing measures

April 18, 2018 (submitted for approval on April 25, 2018)

Final 4.25.18 11 of 62

Deficit Closing and Cost Saving Initiatives

Final 4.25.18 12 of 62

The purpose of this document is to outline the actions being taken or recommended by District management to eliminate potential fiscal deficits projected in this Four Year Financial Plan. Board member suggestions or recommendations for further cost reductions and/or deficit closing measures are always welcome. It must be emphasized that this document is based on information and assumptions available at the time it was created and that actual results may differ, possibly materially, from the projections. Additionally, it must be noted that this document is meant to be an overall guide, but does not replace the annual budgeting process and does not bind the District to take any action in the Plan or preclude the District from taking actions not in the Plan. Actions and the resulting savings outlined in this plan should be considered flexible and changeable based on new information and circumstances. This document will be periodically updated and amended to ensure it continues to be a relevant guide over the course of the next four years.

1	Efficiency/Cost Reduction Area	Cabinet Lead	Target Year 2 (2018/19)	Target Year 3 (2019/20)	Target Year 4 (2020/21)	Target Year 5 (2021/22)	Notes (Prior Year - 6.20.17)	Notes (Updated - 4.18.18)
2 3 4 5	Projected need for recurring reductions (REV - EXP GAP) Projected usage of fund balan	nce	19,000,000	19,505,313	24,933,589	23,178,608	These are the gap projections based on the revenue and expenditures assumptions in the Plan.	These are the gap projections based on the revenue and expenditures assumptions in the Plan.
6 7	4 year financial plan action ite							
8	Revenue - lobbying	Kriner Cash / Will Keresztes		-			year. A repeat of this funding is not assured in the future, but effective lobbying played a part in its receipt. >Legislation is being considered in Albany as of June 2017 to accelerate the reimbursement of charter school supplemental aid, which could increase payment of aid to the District by \$9.0 million in 2017/18 with an increase of \$0.5 million in each of the two following years, followed by an increase of \$0.2 million in the fourth year of the plan. The decision on the adoption of this legislation is expected to occur prior to the end of the legislative session on June 23.	delivered in person and through testimony of Dr. Cash at a joint session of the NYS legislature on 1.31.2018. On 3.31.2018, the District received State aid increases in line with the four year financial plan projections, but far short of the Superintendent's request. 2) Legislation is being considered in Albany as of April 2018 (a repeat of similar legislation in June 2017) to accelerate the reimbursement of charter school supplemental aid, which could increase payment of aid to the District by \$9.5
8a	Additional revenue from the City of Buffalo	Kriner Cash / BOE				-	>In the 2017/18 Budget, there is a \$500,000 increase in aid from the City of Buffalo. Any additional increases are speculative because they are dependent on future City of Buffalo budgets, but if similar increases of \$500,000 are repeated annually throughout the four year plan, the increase would be \$2.0 from the amount received in	1) The district is currently meeting with Mayoral staff to clarify future increases in the annual aid allocation from the City of Buffalo. 2) District and Mayoral staff are also currently meeting and collaborating on possible efficiencies in budgeted expenditures through consolidated purchasing, elimination of duplicate expenditures and other cost-saving measures. 3) District will continue to request these \$0.5 million incremental increases in aid from the City in alignment with this plan.

Final 4.25.18 13 of 62

1	Area	Cabinet Lead	(2018/19)	(2019/20)	(2020/21)	(2021/22)	Notes (Prior Year - 6.20.17)	Notes (Updated - 4.18.18)
9	Revenue enhancement	Jim Barnes		100,000	100,000	100,000	>A conservative placeholder for various revenue enhancements is included in the plan. There are several initiatives being undertaken now that are expected to yield, through better data collection, review of regulations, and staff time devoted to the continued analysis of revenues.	1) A conservative placeholder for various revenue enhancements is included in the plan. There are several initiatives being undertaken now that are expected to yield, through better data collection, review of regulations, and staff time devoted to the continued analysis of revenues. 2) In the 2018-19 budget, the District projects a \$0.9 million increase as a result of STAC high cost aid reimbursement, which exceeds the amount included in the 2018-19 adopted State budget, while other work yielded an increase in Foundation aid during 2017-18 and goforward by capturing more students in the State Foundation Aid calculations (the TAFPU calculation.)
10	Additional fund balance	Geoffrey Pritchard		-	10,500,000	8,500,000	>This plan projects the District will maintain \$1.7 million in excess of the amount required by policy for unassigned reserves. These funds could be used if necessary. Unassigned reserves are maintained at the required minimum per District policy and total reserves in the plan are projected to be \$118 million at the end of the plan.	1) 2018-19 budget includes the \$16.0 million in the original plan, plus \$1.0 million to start off the Plant Department facility painting project and \$2.0 million to offset the \$2.0 million increase in Teachers Retirement System (TRS) expense as a result of an unanticipated rate increase. 2) \$19.0 million in the unassigned fund balance in excess of required minimums is projected based on current projected fund balance usage. In the event that additional fund balance is needed to close a deficit, an amount up to this (all in one year or split over multiple years) is available. A hypothetical split is shown. 3) Additional fund balance beyond these amounts could be allocated.
	subtotal: other revenue and						71.6.	71.6.

13	Vacancy contingency	Geoffrey Pritchard		2,000,000	2,000,000	2 000 000	> The historical trend of vacancies has exceeded this amount, frequently by millions on an annual basis. The District will begin to budget a vacancy contingency in keeping with best practices.	1) In the Draft 2018-19 budget, the District began to include a \$2.0 million vacancy contingency in keeping with best practices and historical performance. The historical trend of vacancies has exceeded \$2.0 million on an annual basis. This could be increased to \$4.0 million if necessary.

Final 4.25.18 14 of 62

1	Efficiency/Cost Reduction Area	Cabinet Lead	Target Year 2 (2018/19)	Target Year 3 (2019/20)	Target Year 4 (2020/21)	Target Year 5 (2021/22)	Notes (Prior Year - 6.20.17)	Notes (Updated - 4.18.18)
14	Retiree healthcare	Geoffrey Pritchard/ Jamie Warren/ BPS negotiation teams		300,000	300,000	300,000	> Proposed elimination of retiree cosmetic surgery rider - \$2.2 million annually, growing 4.5%. > Through union contract negotiation, a District goal is for automatic enrollment in the District's Medicare Advantage Plan (Forever Blue) upon eligibility for all retirees, along with the elimination of retiree healthcare for new hires. No savings projected for this because the savings are expected to offset salary increases in settled contracts. However, it is important to note that the potential savings to the District is approximately \$7.7 million annually (\$2,100 * 3700 unenrolled but eligible retirees).	1) As of 12/2017, retirees that utilize the elective cosmetic surgery rider are being taxed on those dollars - with W2s issued in January 2018. As of January 2018, the District has implemented a processing change that collects retiree share of taxes which is expected to reduce utilization. 2) 1058 Medicare advantage plans are in place as of March 2018, exceeding the 850 in the 4 year plan. 3) New BCSA contract ratified in September 2017 includes mandatory Forever blue enrollment upon eligibility and higher retiree contributions going forward. 4) The most recent actuarial valuation of OPEB liability included a \$200 million favorable impact on the future cost of teacher health insurance (reduced cost and higher copays), as a result of the 10/2016 ratified BTF contract. 5) These initiatives have resulted in a projected reduction of retiree health insurance costs over the course of the plan in the amount of \$12.4 million (see summary and variance from original plan). 6) For future years, the District may be able to obtain better drug pricing for the Medicare Advantage product, saving \$300,000 annually.
15	Employee healthcare	Geoffrey Pritchard/ Jamie Warren/ BPS negotiation teams		500,000	500,000	500,000	>Through union contract negotiation; a District goal is for 10% premium contribution for current active employees; 20% for new hires; and a plan design (e.g. co-pays) similar to the existing PCTEA plan of benefits. No savings projected here, because savings are expected to offset salary increases in settled contracts. >Through union contract negotiation, the elective cosmetic surgery rider will be eliminated for the administrator union (BCSA) and the engineer union (Local 409). No savings projected here, because savings are expected to offset salary increases in settled contracts. >The District is analyzing an increased waiver incentive to move employees onto spouses' plans or public exchanges. This action is still in the early stages of development.	1) The BCSA contract ratified in September 2017 eliminated cosmetic surgery rider and included percentage contribution, with increased contribution for new hires. 2) Memo drafted 9/25/17 and shared with all BPS negotiating committee members on the targeted goals in new negotiations. 3) For the 2018-19 draft budget, projected costs of employee health insurance were \$0.7 million under plan; however, with an increase in FTEs, there is a slight increase in the overall plan of \$2.7 million. 4) \$500,000 is expected yield from a dependent verification in 2018-19, the results of which will carry through the entire plan.
16	Substitute teachers costs	Jamie Warren		100,000	100,000	100,000	the use of extra help subs, the District anticipates saving \$0.5 million annually in substitute teacher costs.	1) The new Substitute Teacher collective bargaining agreement was ratified on 2.14.18, with an approximate \$1.0 million annual spend based on the current year utilization. 2) As of March 2018, sub costs (pre-contract) are trending \$0.6 million under the prior year, with an increase in the positive trend each month of the school year through March 2018. 3) Reasonable sub costs have been budgeted based on this information; with only small incremental reductions anticipated in the future.

Final 4.25.18 15 of 62

1	Efficiency/Cost Reduction Area	Cabinet Lead	Target Year 2 (2018/19)	Target Year 3 (2019/20)	Target Year 4 (2020/21)	Target Year 5 (2021/22)	Notes (Prior Year - 6.20.17)	Notes (Updated - 4.18.18)
17	Nursing costs	Eric Rosser		1,200,000	1,200,000	1,200,000	is not projected in the revenue assumptions of this model. >The District will bid these services for the 2018/19 fiscal	1) The District did receive Bullet aid of \$1.2 million in the 2018-19 State budget as a result of persistent lobbying. 2) An RFP was issued for these services and the analysis is still in process as of April 2018. 3) \$1.2 million shown in the gap closing measures for each year is due to likely repeat of the Bullet aid, or reduction in cost resulting from its omission, so this item remains in the initiatives list.
18	Occupational and physical therapy	Anne Botticelli		-	-	-	>OTPT services are provided by consultants and the special education department is exploring alternative options with respect to the entities that can provide those services. Depending on the results of the analysis and prior RFP experience, a \$0.5 million reduction in the current cost levels should be attainable.	1) It was discussed with Kim Hoelscher, Director of Special Education, that the positive results of the last two years (approximately \$1.0 million in savings per year) warrant extending the current contract for another year. 2) a \$1.0 million reduction has been posted to the current draft version of the budget. This commendable result exceeds the plan by \$0.5 million.
19	Best and Final Offers	Geoffrey Pritchard / Mike Yeates		500,000	700,000	900,000	>A BAFO is considered a revision under NYS Finance Law section 163. Formal procedures are being developed outlining the BAFO process, but based on existing experience, reductions in cost of bid/RFP pricing is estimated to be \$500,000 annually by 2018/19 and grow \$200,000 annually in the two years after, as more expiring contracts are put out to bid.	1) the Network Switch bid item that brought a challenge to the BAFO process has not yet been brought back to the Board; however, recently a \$0.5 million reduction in the cost of security cameras was achieved through the use of a Mini-bid on a NYS contract item. A Mini-bid is similar to a best and final offer as the product is a known commodity, but the price on the NYS contract list is reduced by offering those on the contract pricing list a chance to reduce their prices. For a large volume purchaser, like the District, this can result in significant savings.
20	Textbooks	Geoffrey Pritchard / Mike Yeates		-	-	-	>On all textbook purchases where secondary sources exist, the District will not automatically purchase through the publisher, but through a bid process. This should conservatively save \$200,000 annually, based on current year cost estimates of similar purchases.	1) As a result of this initiative, the district has determined there is sufficient budget remaining in 2017-18 to shift \$0.2 million from 2018-19 and, therefore, it has been incorporated into the draft 2018-19 budget as a result.
21	Facility closure - school 86	Kevin Eberle		261,000	261,000	261,000	>Operating costs are listed as savings if the facility is closed. Capital expenditure avoidance could be between \$2.5-3.0 million in unaidable capital projects. Potentially move Adult Ed into OTC space as part of a larger reorganization.	1) At the Superintendent's March 20, 2018 Budget Retreat, a Facilities Task Force was formed to analyze facilities usage and propose reductions in the 2018-19 budget of \$1.0 million that may include a reduction in the number of active District facilities. Additionally, the task force will lead the process of developing and/or subcontracting an innovative, visionary long term capital and facilities plan and demographic study, which will be incorporated into the District's overall four year financial plan upon completion.

Final 4.25.18 16 of 62

	Efficiency/Cost Reduction	Cabinet Lead	Target Year 2	Target Year 3	Target Year 4	Target Year 5	Notes (Prior Year - 6.20.17)	Notes (Updated - 4.18.18)
1	Area	Cabinet Lead	(2018/19)	(2019/20)	(2020/21)	(2021/22)	Notes (Filor real - 0.20.17)	Notes (Opulated - 4.18.18)
22	Facility closure - school 187	Kevin Eberle		676,000	676,000	676,000	>Operating costs listed as savings if the facility is closed. Capital expenditure avoidance could be between \$5.0-5.5 million in unaidable capital projects. Consideration should be given to move administrators presently at 187 into various building throughout the district. MST could house many immediately.	lead the process of developing and/or subcontracting an
23	Overtime	Kevin Eberle (others dependent on department)		100,000	100,000	100,000	>The departments with the most significant overtime are Trades, Transportation and Security. Overtime usage in those and other departments will be analyzed in 2017/18 and incremental adjustments will be made to reduce the usage of overtime in the final three years of the plan.	1) Overtime for 2017-18 is currently projected to be in line with the prior year. It was noted that significant overtime in the summer of 2017 should not be repeated as Plant has requested instructional pre-planning on moves so overtime is not required at the end of summer to complete moves. 2) Additionally, through reviews of initial 2018-19 budget requests, vacant positions are a contributing factor in overtime, and partially offset the overtime.
24	Yellow bus transportation - bell times in 18/19	Kevin Eberle		-	-		>in 2017/18, the District used receivership powers to make bell time changes at three schools to yield improved bussing efficiency, which also saved \$4.0 million from the initial budget projections. The intent of this plan is to use the District's negotiated ability to adjust all schools' bell times, where needed, in 2018/19 to bring more efficiencies and cost reductions to transportation. This is conservatively expected to yield \$600,000 in 2018/19 and then 16% (the District's reimbursement rate) of that in the next two years.	1) the District did yield approximately \$1.0 million in savings as a result of the bell time shift; however: 2) Two new charter schools (Persistence Prep-108 pupils; Buffalo Collegiate-120 pupils), along with two longstanding charter schools (Tapestry-889 pupils/573 of yellow bus age; Buffalo United-655 pupils) that had previously refused transportation, are now requesting transportation and causing projected increases. Charter schools are finding significant competition for students among themselves, new charter schools, and the District, so pressure to widen their nets to capture more students is forcing them to request bussing. 3) The District is looking at fuel cost controls including locking in pricing and/or purchasing before 2017-18 to reduce fuel costs in 2018-19. 4) Transportation reductions are still being analyzed and may result from the Community School initiative in the New Education Bargain; however, no savings are included here to be conservative.
25	Public carrier transportation	Kevin Eberle		-	-	-	>The current agreement for these services doesn't provide the same level of service to our high school students than if the bus passes were purchased in the open market. There may not be any savings, but we anticipate negotiating an improved level of service.	1) negotiations are ongoing with NFTA as of April 2018.

Final 4.25.18 17 of 62

	Efficiency/Cost Reduction	Cabinet Lead		Target Year 3		Target Year 5	Notes (Prior Year - 6.20.17)	Notes (Updated - 4.18.18)
1	Area		(2018/19)	(2019/20)	(2020/21)	(2021/22)		поста (сравоса посто)
26	Workers comp, medical leave, administrative leave	Jamie Warren		700,000	700,000	700,000	> in 2016/17 the HR department implemented several procedures to reduce the ranks of staff out on these various leaves. As of June 2017, staff being paid full wage on workers comp has been reduced from a historical high in 2016 and further reductions are anticipated.	 This data continues to be tracked. Staff on admin leave are at 20 as of January 2018 (from an average of 37 in 2016 17). Staff on workers comp is at 56 as of January 2018 (from an average of 71 in 2016-17). Comp wages are now being paid by the District's TPA directly to employees out on comp. This is increasing this expense line, but reducing regular wages. The District is beginning to analyze the data to break out the cost details.
27	Master scheduler for high schools	Sabatino Cimato		1,000,000	1,000,000	1,000,000	scheduler who will be tasked with ensuring high school schedules are built efficiently, and additionally, study staffing for special education and ESL services at the schools. Based on prior analysis, it is anticipated a net savings of at least 11 FTEs could be achieved.	1) This position has been posted as of April 2018. It is expected to yield significant savings by a thorough analysis of school scheduling. This analysis will include things like ensuring that special education students are placed in general education encore areas where possible, instead of adding new encore staff for SPED students only, along with ensuring that reconciled student counts are the basis of school staffing when the school year begins.
28	Consolidation of funds	Anne Botticelli / Associates of School Leadership / Jaime Cohen					>The District is exploring the possibility of using consolidation of funds as a way of allocating spending at the school level through multiple funding sources, with spending budgets cascaded so that funds expiring sooner will be spent sooner, and funds expiring later (or carrying over) will be spent later. A primary goal will be to reduce the amount of unspent grant funds and secondarily, to protect the general fund by maximizing the spend in the grants fund. This is an initiative that will be planned for an implementation no earlier than 2019/20.	1) District continues to move this forward, since school by school reporting is an Every Student Succeeds Act (ESSA) requirement; 2018/19 school based budget template now includes all funding sources. 2) The District is presently exploring a weighted student funding pilot project through the Feds with an application due date of July 2018.
20.	Special Education - centralize CSE chairs	Anne Botticelli					>The District has been in receipt of studies and analyses and has developed plans to make special education more efficient and reduce its associated cost. However, the identification of students for more restrictive placements is a major driver increasing special education costs over the years. The District will study the current model, which bases CSE chairs at the schools, to determine if centralizing the process might reduce the number of students being identified as needing more restrictive settings.	1) At the Superintendent's Budget Retreat on March 20, 2018, a task force was formed to analyze Special Education and propose reductions in the 2018-19 budget of \$1.0 million, along with further systemic changes to reduce the unsustainable growth in special education over the short and long term. Between the 2014/15 budget and 2017/18, the District has added nearly as many special education and related services FTE positions as students with a special education classification; this nearly 1 to 1 growth is egregious, disproportional, unsustainable, and requires immediate systemic changes that can no longer be deferred. 2) A \$1.0 million reduction related to area anticipated to be included in the 2018-19 budget. 3) Additionally, the Special Education department is looking a programmatic changes in the summer handicapped program that may reduce the General Fund transfer to cover unreimbursed costs by \$0.2 million.

Final 4.25.18 18 of 62

1	Efficiency/Cost Reduction Area	Cabinet Lead	Target Year 2 (2018/19)	Target Year 3 (2019/20)	Target Year 4 (2020/21)	Target Year 5 (2021/22)	Notes (Prior Year - 6.20.17)	Notes (Updated - 4.18.18)
32	Reduce or eliminate general contingency			1,360,000	1,360,000	1,360,000	>The District budgets a general contingency each year. Though it is prudent to maintain such an amount in the budget, it could be reduced or eliminated in the event that other instructional priorities are threatened.	1) the general contingency is expected to be retained in the 2018-19 general fund budget.
33	Reduce or eliminate the contract settlement contingency			2,000,000	2,500,000	3,000,000	>In 2017-18, the District has a budgeted contingency of approximately \$5 million for union contract settlement. In the past no such amounts were budgeted and it is anticipated that most or all of this will be used to settle outstanding contracts so it is included in each year of the plan. As of June 2017, these funds have not been utilized so could be removed from the plan if necessary.	1) The potential reductions available in this account have been reduced by \$4.0 million on an annual basis for the cost of the BCSA contract settled in 2017-18, but otherwise the contingency remains intact, is projected to grow \$0.5 million annually. 2) This is further supplemented by approximate 1.5% salary rate growth for unions out of contract throughout the plan.
34	Reduce or eliminate non- mandated programs in the general fund			250,000	250,000	250,000	>The District has two large non-mandated consultant-run programs in the general fund. Both were originally grant funded and then shifted to the general fund. These two programs spend close to \$0.7 million annually. These and similar smaller programs (conservatively estimated to be another \$30,000 annually) could be reduced if necessary.	1) In the 2018-19 draft budget, one of these programs has been reduced, while the other continues.
35	Emerson II			1	-	1	>Delay or eliminate the new leased facility for the Emerson II program could save approximately \$0.9 million annually in unreimbursed costs on an annual basis.	The District has selected a developer and is in lease negotiations. This plan assumes that the lease payments start with the full 2020-21 fiscal year
36	Reductions - central office through efficiencies and reductions through attrition			660,000	660,000	660,000	>In years past, the District has made central office reductions to offset reductions in the classroom in the event budget gaps could not be closed without reductions in staffing. In the event such reductions are necessary, it is anticipated 15 FTEs could be reduced or a freeze placed on filling vacancies to assist balancing the budget.	1) On April 4, 2018, the Superintendent issued a memo relating to reductions in central office departments. Strategic reductions, based on growth in the last 4 and 1 years are in process. 2) The District is exploring a desk audit process or other vacancy analysis measure to reduce open positions that can be eliminated.
37	Reductions - Instructional and support			5,540,000	5,540,000	5,540,000	>The District budgets additional capacity in the school based budget process. Some efficiencies are expected based on the implementation of a master scheduler, noted above. It is assumed that by reducing the overcapacity budgeted, a further 10 FTEs could be reduced at a savings of \$940,000. >The District added approximately 40 additional physical education teachers starting in 2015/16. If 20 FTEs were reduced, \$1,880,000 could be saved. >The District has increased the ranks of assistant principals by 38 FTEs since 2011. If 18-20 were reduced, the savings would be approximately \$2,400,000. >The New Education Bargain has increased staffing levels for reduced class size teachers, career and technical education, social workers, among others. If 20 of the well over 100 NEB FTEs were reduced, the savings would be approximately \$1,880,000. >Approximately \$1,880,000. >Approximately 160 aides and assistants have been added since 2014/15. Though many are mandated, if 40 were positions were reduced, the savings would be \$1,440,000.	1) On April 13, 2018, the Superintendent issued a memo relating to reductions in the school based budget. In the 2018-19 draft budget, the District is implementing a holdback in the School Based Budgets (SBB) that varies between \$40,000 (priority schools), \$60,000 (focus schools), and \$100,000 (good standing schools), with certain schools that have prescribed budgets exempted. 2) These reductions amount to \$3.6 million and have been reduced from the potential projected savings.

This third group of action items includes potential reductions in force that could be necessary in the future.
40	Grants through national foundations	Kriner Cash / Will Keresztes					The District is applying to eight major national foundations for \$30-35 million over a 4-5 year period to further enrich the New Education Bargain and protect the O&M fund where possible. This amount is speculative at this point, but is a major initiative underway.	1) The District has identified and engaged with approximately 50 national foundations of all sizes to seek support for funding New Education Bargain initiatives. 2) Of the 8 major foundations the district has identified, currently 3 have received proposals for their consideration. The remaining 5 will advise the district when they are ready to receive our inquiry. 3) Local foundation leaders from Buffalo, Say Yes Buffalo, and Say Yes National have teamed with Dr. Cash to target the key national foundations. The leadership of these philanthropies have directly advocated for the Buffalo Public Schools and have committed to continuing to do so. 4) Concurrently, the Buffalo Public Schools is engaging with WNY philanthropies by proposing specific initiatives that are essential to the New Education Bargain and aligned with their local objectives. 5) At present, no revenues are included in this plan to be conservative.

THIS IS THE ORIGINAL LIST OF INITATIVES ADOPTED 6/20/17

The purpose of this document is to outline the actions being taken or recommended by District management to eliminate potential fiscal deficits projected in this Four Year Financial Plan. Board member suggestions or recommendations for further cost reductions and/or deficit closing measures are always welcome. It must be emphasized that this document is based on information and assumptions available at the time it was created and that actual results may differ, possibly materially, from the projections. Additionally, it must be noted that this document is meant to be an overall guide, but does not replace the annual budgeting process and does not bind the District to take any action in the Plan or preclude the District from taking actions not in the Plan. Actions and the resulting savings outlined in this plan should be considered flexible and changeable based on new information and circumstances. This document will be periodically updated and amended to ensure it continues to be a relevant guide over the course of the next four years.

6												
7	4 year financial plan action items:											
8	Revenue - lobbying	Kriner Cash / Will Keresztes		-	-		>As of June 10, the District has been notified of \$1,000,000 in additional bullet aid funding during the 2017/18 fiscal year. A repeat of this funding is not assured in the future, but effective lobbying played a part in its receipt. >Legislation is being considered in Albany as of June 2017 to accelerate the reimbursement of charter school supplemental aid, which could increase payment of aid to the District by \$9.0 million in 2017/18 with an increase of \$0.5 million in each of the two following years, followed by an increase of \$0.2 million in the fourth year of the plan. The decision on the adoption of this legislation is expected to occur prior to the end of the legislative session on June 23.					
	Additional revenue from the City of Buffalo	Kriner Cash / BOE		500,000	1,000,000	1,500,000	>In the 2017/18 Budget, there is a \$500,000 increase in aid from the City of Buffalo. Any additional increases are speculative because they are dependent on future City of Buffalo budgets, but if similar increases of \$500,000 are repeated annually throughout the four year plan, the increase would be \$2.0 from the amount received in 2016/17.					
9	Revenue enhancement	Jim Barnes		100,000	100,000	100,000	>A conservative placeholder for various revenue enhancements is included in the plan. There are several initiatives being undertaken now that are expected to yield, through better data collection, review of regulations, and staff time devoted to the continued analysis of revenues.					

Final 4.25.18 21 of 62

	THIS IS THE ORIGINAL LIST OF INITATIVES ADOPTED 6/20/17											
1	Efficiency/Cost Reduction Area	Cabinet Lead	_	Target Year 2 (2018/19)	Target Year 3 (2019/20)	Target Year 4 (2020/21)	Notes					
10	Additional fund balance	Geoffrey Pritchard				1,700,000	>This plan projects the District will maintain \$1.7 million in excess of the amount required by policy for unassigned reserves. These funds could be used if necessary. Unassigned reserves are maintained at the required minimum per District policy and total reserves in the plan are projected to be \$118 million at the end of the plan.					
11	subtotal: other revenue and fund balance items		-	600,000	1,100,000	3.300.000	This first group of action items includes revenues					
12				000,000	1,100,000	3,200,000	5 1					
13	Vacancy contingency	Geoffrey Pritchard		2,000,000	2,000,000		> The historical trend of vacancies has exceeded this amount, frequently by millions on an annual basis. The District will begin to budget a vacancy contingency in keeping with best practices.					
14	Retiree healthcare	Geoffrey Pritchard/ Jamie Warren/ BPS negotiation teams		2,194,500	2,293,253	2,396,449	> Proposed elimination of retiree cosmetic surgery rider - \$2.2 million annually, growing 4.5%. > Through union contract negotiation, a District goal is for automatic enrollment in the District's Medicare Advantage Plan (Forever Blue) upon eligibility for all retirees, along with the elimination of retiree healthcare for new hires. No savings projected for this because the savings are expected to offset salary increases in settled contracts. However, it is important to note that the potential savings to the District is approximately \$7.7 million annually (\$2,100 * 3700 unenrolled but eligible retirees).					
15	Employee healthcare	Geoffrey Pritchard/ Jamie Warren/ BPS negotiation teams		-	-	-	>Through union contract negotiation; a District goal is for 10% premium contribution for current active employees; 20% for new hires; and a plan design (e.g. co-pays) similar to the existing PCTEA plan of benefits. No savings projected here, because savings are expected to offset salary increases in settled contracts. >Through union contract negotiation, the elective cosmetic surgery rider will be eliminated for the administrator union (BCSA) and the engineer union (Local 409). No savings projected here, because savings are expected to offset salary increases in settled contracts. >The District is analyzing an increased waiver incentive to move employees onto spouses' plans or public exchanges. This action is still in the early stages of development.					
16	Substitute teachers costs	Jamie Warren		500,000	500,000	500,000	>Through better management of absences, vacancies, and the use of extra help subs, the District anticipates saving \$0.5 million annually in substitute teacher costs.					

Final 4.25.18 22 of 62

	THIS IS THE ORIGINAL LIST OF INITATIVES ADOPTED 6/20/17											
1	Efficiency/Cost Reduction Area	Cabinet Lead	Target Year 1 (2017/18)	Target Year 2 (2018/19)	Target Year 3 (2019/20)	Target Year 4 (2020/21)	Notes					
	Nursing costs	Eric Rosser	(2017)10)	1,200,000	1,200,000	1,200,000	>The District will likely receive Bullet aid of \$1.2 million as it has received this amount for the last three years in recognition of the cost increases in nursing services, but it is not projected in the revenue assumptions of this model. >The District will bid these services for the 2018/19 fiscal year and will emphasize the need to reduce overhead/administrative costs, which have escalated as part of the existing contract. >The District has also begun to analyze the feasibility of bringing these services in-house.					
18	Occupational and physical therapy	Anne Botticelli		500,000	500,000	500,000	>OTPT services are provided by consultants and the special education department is exploring alternative options with respect to the entities that can provide those services. Depending on the results of the analysis and prior RFP experience, a \$0.5 million reduction in the current cost levels should be attainable.					
19	Best and Final Offers	Geoffrey Pritchard / Mike Yeates		500,000	700,000	900,000	>A BAFO is considered a revision under NYS Finance Law section 163. Formal procedures are being developed outlining the BAFO process, but based on existing experience, reductions in cost of bid/RFP pricing is estimated to be \$500,000 annually by 2018/19 and grow \$200,000 annually in the two years after, as more expiring contracts are put out to bid.					
20	Textbooks	Geoffrey Pritchard / Mike Yeates		200,000	200,000	200,000	>On all textbook purchases where secondary sources exist, the District will not automatically purchase through the publisher, but through a bid process. This should conservatively save \$200,000 annually, based on current year cost estimates of similar purchases.					
21	Facility closure - school 86	Kevin Eberle		261,000	261,000	261,000	>Operating costs are listed as savings if the facility is closed. Capital expenditure avoidance could be between \$2.5-3.0 million in unaidable capital projects. Potentially move Adult Ed into OTC space as part of a larger reorganization.					
22	Facility closure - school 187	Kevin Eberle		676,000	676,000		>Operating costs listed as savings if the facility is closed. Capital expenditure avoidance could be between \$5.0-5.5 million in unaidable capital projects. Consideration should be given to move administrators presently at 187 into various building throughout the district. MST could house many immediately.					
23	Overtime	Kevin Eberle (others dependent on department)		100,000	100,000	100,000	>The departments with the most significant overtime are Trades, Transportation and Security. Overtime usage in those and other departments will be analyzed in 2017/18 and incremental adjustments will be made to reduce the usage of overtime in the final three years of the plan.					

Final 4.25.18 23 of 62

	THIS IS THE ORIGINAL LIST OF INITATIVES ADOPTED 6/20/17											
1	Efficiency/Cost Reduction Area	Cabinet Lead	Target Year 1 (2017/18)	Target Year 2 (2018/19)	Target Year 3 (2019/20)	Target Year 4 (2020/21)	Notes					
24	Yellow bus transportation - bell times in 18/19	Kevin Eberle		600,000	84,000	84,000	>in 2017/18, the District used receivership powers to make bell time changes at three schools to yield improved bussing efficiency, which also saved \$4.0 million from the initial budget projections. The intent of this plan is to use the District's negotiated ability to adjust all schools' bell times, where needed, in 2018/19 to bring more efficiencies and cost reductions to transportation. This is conservatively expected to yield \$600,000 in 2018/19 and then 16% (the District's reimbursement rate) of that in the next two years.					
25	Public carrier transportation	Kevin Eberle		-	-	-	>The current agreement for these services doesn't provide the same level of service to our high school students than if the bus passes were purchased in the open market. There may not be any savings, but we anticipate negotiating an improved level of service.					
26	Workers comp, medical leave, administrative leave	Jamie Warren		700,000	700,000	700,000	> in 2016/17 the HR department implemented several procedures to reduce the ranks of staff out on these various leaves. As of June 2017, staff being paid full wage on workers comp has been reduced from a historical high in 2016 and further reductions are anticipated.					
27	Master scheduler for high schools	Sabatino Cimato		1,000,000	1,000,000	1,000,000	>The District plans to create the position of a master scheduler who will be tasked with ensuring high school schedules are built efficiently, and additionally, study staffing for special education and ESL services at the schools. Based on prior analysis, it is anticipated a net savings of at least 11 FTEs could be achieved.					
28	Consolidation of funds	Anne Botticelli / Associates of School Leadership / Jaime Cohen			-	-	>The District is exploring the possibility of using consolidation of funds as a way of allocating spending at the school level through multiple funding sources, with spending budgets cascaded so that funds expiring sooner will be spent sooner, and funds expiring later (or carrying over) will be spent later. A primary goal will be to reduce the amount of unspent grant funds and secondarily, to protect the general fund by maximizing the spend in the grants fund. This is an initiative that will be planned for an implementation no earlier than 2019/20.					
29	Special Education - centralize CSE chairs	Anne Botticelli			-	-	>The District has been in receipt of studies and analyses and has developed plans to make special education more efficient and reduce its associated cost. However, the identification of students for more restrictive placements is a major driver increasing special education costs over the years. The District will study the current model, which bases CSE chairs at the schools, to determine if centralizing the process might reduce the number of students being identified as needing more restrictive settings.					
30	Subtotal: efficiencies and savings that are planned or in process		_	10,431,500	10,214,253	10,517,449	This second group of action items are meant to bring efficiencies to the budget, but not require any reduction in the level of required services to students.					

Final 4.25.18 24 of 62

	THIS IS THE ORIGINAL LIST OF INITATIVES ADOPTED 6/20/17											
1	Efficiency/Cost Reduction Area	Cabinet Lead		Target Year 2 (2018/19)	Target Year 3 (2019/20)	Target Year 4 (2020/21)	Notes					
31												
	Reduce or eliminate general contingency			1,300,000	1,300,000	1,300,000	>The District budgets a general contingency each year. Though it is prudent to maintain such an amount in the budget, it could be reduced or eliminated in the event that other instructional priorities are threatened.					
33	Reduce or eliminate the contract settlement contingency			5,500,000	6,000,000	6,500,000	>In 2017-18, the District has a budgeted contingency of approximately \$5 million for union contract settlement. In the past no such amounts were budgeted and it is anticipated that most or all of this will be used to settle outstanding contracts so it is included in each year of the plan. As of June 2017, these funds have not been utilized so could be removed from the plan if necessary.					
	Reduce or eliminate non-mandated programs in the general fund			670,000	700,000	730,000	>The District has two large non-mandated consultant-run programs in the general fund. Both were originally grant funded and then shifted to the general fund. These two programs spend close to \$0.7 million annually. These and similar smaller programs (conservatively estimated to be another \$30,000 annually) could be reduced if necessary.					
35	Emerson II			900,000	900,000	900,000	>Delay or eliminate the new leased facility for the Emerson II program could save approximately \$0.9 million annually in unreimbursed costs on an annual basis.					
	Reductions - central office through efficiencies and reductions through attrition			990,000	990,000	990,000	>In years past, the District has made central office reductions to offset reductions in the classroom in the event budget gaps could not be closed without reductions in staffing. In the event such reductions are necessary, it is anticipated 15 FTEs could be reduced or a freeze placed on filling vacancies to assist balancing the budget.					

Final 4.25.18 25 of 62

	THIS IS THE ORIGINAL LIST OF INITATIVES ADOPTED 6/20/17												
	Efficiency/Cost Reduction Area	Cabinet Lead	Target Year 1	_	Target Year 3	Target Year 4	Notes						
1			(2017/18)	(2018/19)	(2019/20)	(2020/21)							
37	Reductions - Instructional and support			8,540,000	8,540,000	8,540,000	>The District budgets additional capacity in the school based budget process. Some efficiencies are expected based on the implementation of a master scheduler, noted above. It is assumed that by reducing the overcapacity budgeted, a further 10 FTEs could be reduced at a savings of \$940,000. >The District added approximately 40 additional physical education teachers starting in 2015/16. If 20 FTEs were reduced, \$1,880,000 could be saved. >The District has increased the ranks of assistant principals by 38 FTEs since 2011. If 18-20 were reduced, the savings would be approximately \$2,400,000. >The New Education Bargain has increased staffing levels for reduced class size teachers, career and technical education, social workers, among others. If 20 of the well over 100 NEB FTEs were reduced, the savings would be approximately \$1,880,000. >Approximately 160 aides and assistants have been added since 2014/15. Though many are mandated, if 40 were positions were reduced, the savings would be \$1,440,000.						
	subtotal: other cost reductions that						This third group of action items includes potential reductions in force						
	may become necessary		-	17,900,000	18,430,000	18,960,000	that could be necessary in the future.						
40	Grants through national foundations	Kriner Cash / Will Keresztes		9,000,000	9,000,000	9,000,000	The District is applying to eight major national foundations for \$30-35 million over a 4-5 year period to further enrich the New Education Bargain and protect the O&M fund where possible. This amount is speculative at this point, but is a major initiative underway.

Fund Balance (Budgetary Only)	5,063,735	2,488,948	2,655,764	2,833,667
The food service fund is expecting to use a significant amount of the accur	mulated fund halance in 2016 17 to expand t	ha commissany to hat	tor most the needs	of the District's

The food service fund is expecting to use a significant amount of the accumulated fund balance in 2016-17 to expand the commissary to better meet the needs of the District's students and schools. The Commissary expansion is budgeted to amount to \$3.3 million for building improvements and related equipment purchases. Both of these are one time items. The remaining fund balance usage in the out years will be used to balance the budget and avoid any reduction in service.

Total food service revenues	37,970,745	36,029,164	36,841,851	37,678,540
Total revenues for all funds	1,070,882,209	1,078,957,403	1,088,823,548	1,108,024,785

Projected growth 5.0% 5.0% 5.0%	5.0%
Healthcare initiatives -	
The District has incorporated several initiatives into the projected costs of health insurance	
in 2017/18 that have been budgeted as cost reductions. These conservative estimates are	
derived in consultation with the District's insurance consultant. In this plan, the reduction of	
\$2.5 million is shown as an amount that repeats in the future years; however, in reality,	
these amounts will be incorporated into the premium equivalent rates (lowered rates) going	
forward. (500,000)
